

- 2) Newton Raphson method. (11111)
- 12) Bisection Section (1)
- 3) Errors. (11111)
- 4) Significant numbers (1)
- 5) Secant method.
- 6) Golden section search.
- 7) Computing values from table.
- 8)

Unit-II

- 1) Computing values from table.
- 2) Simpson's $1/3$ rule. (111111)
- 3) Difference table. (11)
- 4) Lagrange interpolation formula. (111)
- 5) factorial notations.
- 6) Trapezoidal rule. (11)
- 7) Simpson's $3/8$ rule. (1)
- 8) Weble rule.
- 9) Divided difference. (11)
- 10) Newton Backward's formula
- 11) Romberg method.
- 12) Gauss quadrature formula.

Unit-III

- 1) Gauss Jordan method. (1)
- 2) matrix inversion method.
- 3) LU factorisation method.
- 4) Power method (1)
- 5) Gauss elimination method. (1)

- 2/3/20
Vishay
Date
- 6) Cubic spline method. (1)
7) Gout's method.
8) Cholesky decomposition method.
9) Eigen Value problem

Unit - IV

- 1) Taylor's method -
2) Euler's method (1/1).
3) Runge kutta (1/1/1/1)
4) Picard's method.
5) Taylor's series method.
6) Adom's Bashforth method.
7)
